SUMMARY

Entry-level Data and Insight Analyst with hands-on experience delivering end-to-end data analysis through academic training, simulations, and practical projects. Skilled in transforming raw datasets into actionable insights using SQL, Python (pandas), Excel, and Power BI. Proven ability to build KPI-driven dashboards, automate reporting, and uncover trends that support data-informed business decisions and operational efficiency.

SKILLS

- Python (Pandas, NumPy)
 - Excel (Pivot Tables, VLOOKUP, Power Query)
 - Power BI (DAX, Dashboards)
 - SQL (SQL Server, BigQuery)
 - Data Visualization (Seaborn, Matplotlib)
- KPI Tracking
 - Exploratory Data Analysis
 - Data Cleaning
 - Financial analysis
 - Leadership
- Insight Generation
 - Effective communication
 - Reporting
 - Dashboard Development
 - Performance Monitoring

EXPERIENCE

- Trainee Data Analyst** (Practical Training Program)
FGN 3MTT Initiative (Darey.io Affiliate)

Jan 2025-Jul 2025
Abuja, Nigeria

 - Analyzed structured financial and operational datasets using SQL and Excel, resolving data quality issues improving reporting accuracy by approximately **30%**.
 - Design and delivered interactive Power BI dashboards to monitor KPIs, including revenue trends, growth rates and operational performance, reducing manual reporting effort by **40%**.
 - Performed data cleaning and exploratory data analysis using Python (pandas), identifying trends and anomalies that supported scenario-based business insights.
 - Communicated analysis results through clear written reports and presentations, supporting 3-5 non-technical stakeholders in understanding key findings and applying them to routine decision-making.
- Data Analysis Projects (Self-Initiated & Academic)**
Independent Projects (GitHub Portfolio)

Jan 2024-Dec 2024
Talata Mafara, Nigeria

 - Completed 5+ data analysis projects using SQL, Python, Excel, and Power BI, reflecting common business reporting and analysis tasks.
 - Cleaned and prepared 50,000+ records from financial datasets, improving data consistency and reducing errors and duplicates.
 - Analysed revenue and performance data to identify trends, outliers, and key drivers affecting business outcomes.
 - Created 3+ Power BI dashboards to track performance indicators and present findings clearly to non-technical audiences.
- Junior Data Analyst / Data Entry (Contract Role)**
Unique Tech

Sep 2023-Dec 2023
Talata Mafara, Nigeria

 - Processed and maintained 10,000+ business and financial records using Excel and SQL, ensuring accuracy and completeness.
 - Supported weekly and monthly reporting by preparing structured summaries and basic dashboards, reducing report preparation time by about 15%.
 - Reviewed and organized raw data to improve data quality and support smoother reporting processes.
 - Assisted team members by ensuring datasets used in reports aligned with business and documentation requirements.

EDUCATION

- Master of Science: Geophysics**
Federal University of Technology Minna

Expected in Sep 2028
Minna, Nigeria
- Bachelor of Science: Physics**
Federal University Gusau

Feb 2022
Gusau, Nigeria

CERTIFICATION

- Data Analysis and Visualization - FGN 3MTT Initiative (Darey.io)
- Preparation for Job Interview - Cousera Project Network
- The Fundamental of Digital Marketing - Google Digital Skills for Africa
